

Resolución de 10 de abril de 2014, del Director de Pesca y Acuicultura, por la que se autoriza con carácter experimental a AZTI TECNALIA, la inmersión de ostras planas (*Ostrea edulis*) en .

VISTO el escrito de fecha 4 de abril de 2014, presentado por AZTI TECNALIA, por el que se solicita autorización para una inmersión de individuos de ostra provenientes de Inglaterra en el establecimiento de cultivos marinos que la citada empresa tiene en Getaria.

FUNDAMENTOS DE DERECHO

Primero.- Según el artículo 19 k del Decreto 629/2009, de 22 de diciembre, por el que se establece la estructura orgánica y funcional del Departamento de Medio Ambiente, Planificación Territorial, Agricultura y Pesca, corresponde a la Dirección de Pesca y Acuicultura otorgar las licencias, autorizaciones y concesiones que establece la Ley 6/1998, de 13 de marzo, de pesca marítima.

Segundo.- De conformidad con lo establecido en el artículo 40. 1 de la Ley 6/1998, de 13 de marzo, de pesca marítima, la inmersión de especies marinas deberá ser autorizada por el Departamento competente en materia de pesca.

De acuerdo con lo dispuesto en el artículo 40. 2 de la citada Ley, la autorización para la inmersión se concederá previa acreditación del certificado de procedencia y sanitario, expedido por el organismo competente del lugar de origen.

En el presente caso, AZTI TECNALIA, ha acreditado la procedencia de la especie de zona legalizada y el cumplimiento de las normas sanitarias según certificado aportado.

VISTOS los preceptos citados y demás de general aplicación

RESUELVO

Primero.- Autorizar a AZTI TECNALIA, la inmersión en la instalación experimental (long line mar abierto) frente a la costa de Mendexa, de una partida de 6.436 individuos de ostra (*Ostrea edulis*).

El titular de la autorización será responsable del cumplimiento de las siguientes condiciones:

- a).- La empresa autorizada comunicará al Servicio de Inspección Pesquera de Bizkaia Tfn. 688670902 (Luis) el día y la hora prevista para la inmersión.
- b).- La partida de ostras deberá ir acompañada de la correspondiente guía de circulación y de los certificados sanitarios y de origen del país de procedencia.

c).- Si antes o después de la inmersión se observara la mortalidad anormal de peces o cualquier manifestación de enfermedad, se procederá a aislamiento de los mismos para evitar una posible transmisión y se dará cuenta inmediata al Servicio de Inspección Pesquera y al Departamento de Sanidad.

Se enviarán, con la máxima urgencia, muestras de peces enfermos a laboratorios autorizados para proceder al estudio de los agentes patógenos de la enfermedad.

d).- La Dirección de Pesca y Acuicultura, a través de su personal técnico, podrá inspeccionar la inmersión y el posterior desarrollo de los individuos introducidos en las instalaciones de la empresa.

e).- Será de aplicación lo establecido en el Real Decreto 1614/2008, de 3 de octubre, relativo a los requisitos zoonosanitarios de los animales y de los productos de la acuicultura, así como a la prevención y el control de determinadas enfermedades de los animales acuáticos (y su posterior modificación mediante el Real Decreto RD 1590/2009 de 16 Octubre) según el cual se modifica el artículo 2 y el anexo III del Real Decreto 751/2006, de 16 de junio, sobre autorización y registro de transportistas y medios de transporte de animales y por el que se crea el Comité español de bienestar y protección de los animales de producción, para contemplar la acuicultura, habida cuenta que las previsiones del Reglamento (CE) nº 1/2005 del Consejo, de 22 de diciembre de 2004, relativo a la protección de los animales durante el transporte y las operaciones conexas.

e).- Esta autorización se otorga sin perjuicio de las demás obligaciones, tanto administrativas como fiscales o sanitarias que la empresa deba cumplimentar.

Segundo.- Contra la presente Resolución, que no agota la vía administrativa, se podrá interponer por el interesado Recurso de Alzada ante el Viceconsejero de Pesca e Industrias Alimentarias, en el plazo de un mes a contar desde el día siguiente al de la notificación de esta Resolución.

En Vitoria-Gasteiz, a 10 de abril de 2014.

Placing on the market of aquaculture animals for farming, rearing, put and take fisheries, open ornamental facilities and restocking

II.	Health information	II.a. Certificate reference No	II.b.
II.1	General requirements		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to in Part I of this certificate:		
II.1.1	either (1)(2) have been inspected within (1)(2)(3) (1)(24) hours of loading, and showed no clinical signs of disease]		
	or ⁽¹⁾ (3) in the case of eggs and molluscs, come from a farm or mollusc farming area where, according to the records of the farm or mollusc farming area, there is no indication of disease problems]		
	or (1)(3) in the case of wild aquatic animals, according to the best of my knowledge and belief are clinically healthy].		
II.1.2	are not subject to any prohibitions due to unresolved increased mortality;		
II.1.3	are not intended for destruction or slaughter for the eradication of diseases;		
II.1.4	comply with the requirements for placing on the market laid down in Directive 2006/88/EC;		
II.1.6	⁽¹⁾ (3) in the case of molluscs, were subject to an individual visual check of each part of the consignment, and no molluscs species other than those specified in Part I of the certificate were detected.]		
II.2	(1)(4)(5) Requirements for species susceptible to viral haemorrhagic septicaemia (VHS), infectious haematopoietic necrosis (IHN), infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease.		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above:		
	either (1)(6) originate from a Member State, zone or compartment declared free from (2)(VHS) (3)(IHN) (4)(ISA) (5)(KHV) (6)(Marteilia refringens) (7)(Bonamia ostreae) (8)(White spot disease) in accordance with Chapter VII of Directive 2006/88/EC.]		
	or ⁽¹⁾⁽⁵⁾⁽⁶⁾ in the case of wild aquatic animals, have been subject to quarantine in accordance with Decision 2008/046/EC.]		
II.3	(1)(7) Requirements for vector species to viral haemorrhagic septicaemia (VHS), infectious haematopoietic necrosis (IHN), infectious salmon anaemia (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease		
	I, the undersigned official inspector, hereby certify that the aquaculture animals referred to above which are to be regarded as possible vectors to (2)(VHS) (3)(IHN) (4)(ISA) (5)(KHV) (6)(Marteilia refringens) (7)(Bonamia ostreae) (8)(White spot disease) as they are of species listed in Column 2 and fulfil the conditions set out in Column 3 of the table in Annex I to Regulation (EC) No 1251/2008:		
	either (1)(8) originate from a Member State, zone or compartment declared free from (2)(VHS) (3)(IHN) (4)(ISA) (5)(KHV) (6)(Marteilia refringens) (7)(Bonamia ostreae) (8)(White spot disease) in accordance with Chapter VII of Directive 2006/88/EC.]		
	or ⁽¹⁾⁽⁸⁾⁽⁷⁾ have been subject to quarantine in accordance with Decision 2008/046/EC.]		
II.4	Transport and labelling requirements		
	I, the undersigned official inspector, hereby certify that:		
II.4.1	the aquaculture animals referred to above,		
	(i) are placed under conditions, including with a water quality, that do not alter their health status,		
	(ii) as appropriate, comply with the general conditions for the transport of animals laid down in Article 3 of Regulation (EC) No 1/2005

19th March 2014

Dear Mr Wilkinson

DISEASE SCREENING OF FLAT OYSTERS *Ostrea eduli* FROM GUERNSEY FOR OsHV-1 AND OIE LISTED DISEASES

I can confirm that we received samples of flat oyster larvae from Guernsey Sea Farms and 30 flat oyster adults from the following 5 beach sites (Roquaine North, Torquetil, Port Gras, Grande Havre and Chouet) submitted by Guernsey Sea Fisheries on Wednesday 19 February 2014 and that all testing has been completed.

From our examination of the samples submitted for testing we can report the following:

- five pools of 50mg of diploid larvae tested negative for OsHV-1 using the C2C6 nested PCR assay.

In addition we saw no evidence of any of the following OIE listed diseases in the samples of larvae or adults examined histologically:

- *Haplosporidium nelsoni*
- *Marteiliodes chungmuensis*
- *Mikrocytos mackini*
- *Perkinsus marinus*
- *Perkinsus olseni*

We are pleased to report that all testing proved negative. You will appreciate however that this report refers only to the samples and cannot be construed as an assurance that all the remaining stocks would give similar results. We also cannot give any assurance that an infection has not occurred since the samples were taken, or will not occur in the future. It follows, therefore, that this letter should not be used to give assurances to your customers as to the health status of the stock.

If you require further clarification on any of the above please do not hesitate to contact the laboratory.

Yours sincerely

Michael Gubbins
Fish Health Inspector
